

Rest Haven Nursing Home Expansion

Bethesda Foundation Pledges Additional \$5.3M for Rest Haven Expansion

The Province of Manitoba recently announced that Steinbach would be getting 83 additional personal care home beds through a significant expansion at Rest Haven Nursing Home. The 60 bed facility will more than double to a total of 143 beds.

These additional beds are urgently needed as the wait list for placement is long, and all too often our seniors are having to move far away from family and friends when they need personal care home support.

“THE 60 BED FACILITY WILL MORE THAN DOUBLE TO A TOTAL OF 143 BEDS.”

The great news came with a few challenges to overcome. Bethesda Foundation had previously pledged to raise the \$4 million community contribution needed to move this project forward. It was now evident that an additional \$1.3 million would be needed from the community for the expansion to proceed.

Chair of Bethesda Foundation, Garth Reimer, says, “The total pledge of \$5.3 million is by far the largest in the Foundation’s history, and is only possible because of the many generous donors in this community. A huge thanks to all of those generous donors for repeatedly stepping up with us, to continue enhancing healthcare close to home.”
